

Customer Quick Reference Guide for Cash Management – Secure Token Registration

Open <https://www.cfbank.com> and click the orange LOGIN button in the upper right corner of your screen.

Enter your Single SignOn ID under the Cash Management Business Online Banking section and click LOGIN.

Online Banking Login Options

You can easily login to your online accounts below.

FirstNet Personal Online Banking

FirstNet ID

Cash Management Business Online Banking

Single SignOn ID

Next enter your Single Signon PIN/Password in the FirstNet Banking PIN/PASSWORD box and click Submit.

FirstNet Banking ID

FirstNet Banking PIN/PASSWORD [Reset Password](#)

When prompted for the receipt of your Secure Token, click Yes to register.

Register your Secure Token:

Have you received your Secure Token yet? If yes, please click **Yes** and follow the instructions to register your device. If no, click **No** to be prompted again during a future login.

On the back of the token is the Serial #.

Enter the Serial # of the token in the Device Serial Number Box. Then flip the token over, push the button and enter the 6 digit code from the front of the token in the Key Fob Token Code box. Click Submit.

Register your Secure Token:

Enter the required information to register your secure token. Refer to the diagram on the left to locate the device serial number and token code. The code on the token changes every sixty (60) seconds. Each horizontal line to the left of the token code represents 10 seconds.

Device Serial Number (back):

Key Fob Token Code (front):

Your new token has been activated. Click Continue to go to Cash Management.

Register your Secure Token:

You have successfully registered your secure token. You will be required to enter the token code each time you access your accounts on this system.

Recommended Practices to Safeguard your Online Banking Account

- Remove employees from accounts they no longer use and minimize authority and access to what is absolutely necessary for each user.
- Make sure all users have strong passwords and PINs and are keeping them secure.
- Remind all users to avoid suspicious emails and NOT to click on links in emails from unknown sources.
- Remind all users NOT to provide user names or other credentials to anyone. Legitimate sources will not ask for this information and you should never provide it in response to phone calls or emails.
- Keep anti-virus signatures current and update your operating system with the latest patches.
